VLC media player is a free media player, encoder and streamer that can read from files, CDs, DVDs, network streams, capture cards and even more!  
VLC uses its internal codecs and works on essentially every popular platform.

This version of VLC was compiled by:  
jb on sasmira.jbkempf.com (Jul 30 2010 14:49:49).  
Compiler: gcc version 4.4.4 (GCC) .  
You are using the Qt4 Interface.
